TOPICS OF THE CONFERENCE

- Rational use of natural resources
- Energy-saving technologies
- Alternative sources of energy
- Advanced polymeric materials
- Oil production, refining and petrochemistry
- Environmental problems associated with pollution by petroleum and petroleum products and ways of their resolving
- Practical assets used in agriculture.

REQUIREMENTS FOR THE MATERIALS OF THE CONFERENCE

The scientific program includes oral and poster reports.

Abstracts of plenary, oral and poster papers (6-8 pages of A4 format with summary) will be published in proceedings of the conference and must meet the following requirements:

- Name of the report (printed in capital letters);
