

# CURRICULUM VITAE

**Academician, Professor, Dr. Nodar P. Mitagvaria**

Born January 29, 1941 in Tbilisi, Georgia.

Address (h): 32-b, Saakadze St., Tbilisi 0180, Georgia.

Address (w): I.Beritashvili Center of Experimental Biomedicine 14, Gotua St., Tbilisi 0160, Georgian National Academy of Sciences, 52, Rustaveli Av., Tbilisi 0108; Georgia.

Phone: (+995 32) 299-6055 (w); (+995 32) 269-6642 (h);

E-mail: nodmit@gmail.com;

**EDUCATION:** Technical University of Georgia, Tbilisi, 1964 –Bachelor, Systems of Regulation and Control;  
Beritashvili Institute of Physiology, Georgian Academy of Sciences, Tbilisi, 1971 - **Candidate of Biological Sciences (Pathological Physiology);**  
Sechenov Institute of Evolutionary Physiology and Biochemistry, Leningrad, Russia, 1984 - **Doctor of Biological Sciences (Human and Animals Physiology).**

**ACADEMIC RANK :** Professor in Human and Animals Physiology (1991),  
**Academician of the Georgian National Academy of Sciences (2013).**

## SCIENTIFIC SOCIETIES:

- International Society on Oxygen Transport to Tissue (**ISOTT**), *former Executive Director (1978-1981)*
- International Clinical Hyperthermia Society (**ICHS**), *President, 2010-2011*
- International Brain Research Organization (**IBRO**), *Member of Governing Council (2010 – 2016)*
- Federation of European Neuroscience Society (**FENS**), *Member of Governing Council (2010-2016)*
- European Neurological Society (ENS);
- Sigma-Xi – International Research Society, *Full Member*
- Georgian Neuroscience Association, *former Secretary General*
- Georgian Physiological Society, *Vice-President*

## CAREER:

- **1967-1971:** Post-graduator and then Research Scientist, Beritashvili Institute of Physiology, Georgian Academy of Sciences, Tbilisi, Georgia;

- **1971-1980:** Head, Department of Metabolic Maintenance of the Brain Functions, same institution.
- **1980-1991:** Vice-Director, Beritashvili Institute of Physiology, Georgian Academy of Sciences, Head of above-mentioned Department, Tbilisi, Georgia.
- **1991-present:** Head, Department of Cerebral Circulation and Metabolism, Beritashvili Center of Experimental Biomedicine (formerly the Beritashvili Institute of Physiology), Tbilisi, Georgia.
- **1991 – 2017:** Senior Consultant of the Valley Cancer Institute (Los Angeles, CA, USA)
- **2017-Present:** Scientific Advisor of BAO Health Resources Corporation (Tarzana, CA, USA).
- **2015-Present:** Academician- Secretary, Dept. Physiology and Medicine, Georg. Nation. Academy of Sciences, Tbilisi, Georgia;

**SUPERVISOR OF  
DISSERTATIONS:**

**38 PhD and 10 Doctors of Sciences** (defended in the fields of Biology and Medicine),

**GRANTS:**

*International:*

1. **NATO Science Program.** The study of mechanisms of ischemic-hypoxic disorders in the brain (jointly with the Department of Anatomy at Bristol University) (**1998-1999, Head of the project from the Georgian side**)
2. **ISTC.** Novel methods for correction of brain functions in depression and after antidepressant treatment (**1999-2004, Head of the group**).
3. **OSGF.** Training of the specialists from the field of basic biomedical disciplines (**1996, Manager**).
4. **World Vision (GABSI-RV).** Georgian tool for rapid assessment of adaptive behavior (**2006, participant**)
5. **STCU.** The role of blood rheology and free radicals in local hyperthermia-induced morphological changes in the brain (**2009-2011; Scientific Supervisor and Manager**)
6. **STCU.** Analysis of the mechanisms of whole body hyperthermia-induced behavioral disorders (experimental study) (**20012-2014; Scientific Supervisor and Manager**)
7. **STCU.** Development and study of novel nanomaterials for self-regulated magnetic cell hyperthermia of cancer cells (**2018-2020; Head of Scientific Team**)

**Local:**

State Scientific-Technical Program - Development and introduction of new diagnostic and prevention tools. Experimental study of the pathogenesis, prevention and treatment of cerebral infarction (**1997-2000, team leader**);

Georgian National Academy of Sciences (GNAS) - Examining the role of the adjacent nucleus and, amygdala complex, in drug-dependent behavioral disorders using an experimental model of psychotropic self-injection (**1997-2000, team leader**);

GNAS. Cerebrovascular Age-Related Changes in Normal and Antihypertensive Drug Conditions (**2002-2004, Scientific Supervisor and Manager**);

GNAS. Analysis of changes in morpho-functional and behavioral indices induced by Sildenafil Citrate (**2001, Scientific Supervisor and Manager**);

GNAS. Analysis of morphological and functional changes caused by local hyperthermia in the brain (**2005, Scientific Supervisor and Manager**).

**LONG-TERM RESEARCH ACTIVITY  
IN FOREIGN COUNTRIES:**

- **1973** – Center of Clinical and Experimental Medicine, **Warsaw (3 months)**;
- **1975** – Max Plank Institute of Systems Physiology, **Dortmund, Germany (6 months)**;
- **1978** – Roswell Park Memorial Institute, **Buffalo, New York (5 months)** and Henry Ford Hospital, **Detroit, Michigan (1 month)**;
- **1983** – Western Tumor Medical Group, **Van Nice, California, USA (3 months)**;
- **1986** – Pan Dynamics Medical Corporation, **Los Angeles, California, USA (3 months)**;
- **1990-1991** – Valley Cancer Institute, **Los Angeles, California, USA (5 months)** and **Rollins College, Winter Park, Florida, USA (3 months)**.

**LANGUAGES:** Georgian, Russian and English

**HONORS:**

- Laureate of the **Beritashvili Prize (2001)**.
- International Order: “**Merit for Life” (1991)**;

- **First Prize and Honorary Diploma of the USSR Academy of Sciences for High Quality Investigations provided in the field of Cerebral Circulation (1991)**

**EDITORIAL  
BOARDS:**

**Editor-in-Chief, Journal - Proceedings of the Georgian National Academy of Sciences, Biomedical Series;**

**PUBLICATIONS:**

**3 Monographs:**

- **N.Mitagvaria, H. Bicher.** Cerebral Blood Flow Regulation, Nova Science Publishers, NY, 2009;
- Azin L., Klimin V., **Mitagvaria N.**, Baratashvili I. Regulatory mechanisms of the blood supply to the cerebral cortex, Ekaterinburg, Nauka, 1995;
- **N. Mitagvaria.** Stability of Circulatory maintenance of the brain functions. Metsniereba, Tbilisi, 1983;

**3 Textbooks** (2 - Biology for high schools, **and**  
1 – Anatomy and Physiology for professional Schools)

**and** over 200 Articles published in Georgian, Russian and English periodicals and Proceedings, devoted to the problems of Cerebral circulation and metabolism in norm and different pathological conditions (stroke, hypertension, changes in blood rheological properties, hyperthermia and others) published in local and international periodicals (Some of them attached).

**SCIENTIFIC  
FORUMS:**

**Organizer of two International Forums:**

- 1. Physiology, Pathological Physiology and Pharmacology of Cerebral Circulation (1988) and**
- 2. Hyperthermia – Scientific Basis and Clinical Application (2010)**

**and** Participant and Keynote Speaker of many International and Local Scientific Forums.

## **LIST OF SELECTED PUBLICATIONS:**

### **MONOGRAPHS:**

1. **Mitagvaria N.P.**, Bicher H. Cerebral Blood Flow Regulation. **Nova Publishers Inc., NY, 2009.**
2. Azin A.L., Klimin V.G., **Mitagvaria N.P.**, Baratashvili I.K. Regulatory mechanisms of blood supply to the cerebral cortex. **Ekaterinburg, Nauka, 1995.**
3. **Mitagvaria N.P.** Stability of circulatory support of brain functions. **Tbilisi, Metsniereba, 1983.**

### **TEXTBOOKS:**

1. Human physiology for everyone. Tbilisi, 2013. (Co-authors - G. Bekaia, L. Machavariani).
2. Fundamentals of Human Anatomy and Physiology, Handbook for Medical and Pharmaceutical Secondary Vocational Schools, Parnavaz, Gori, 2012 (Co-author: T. Kekoshvili).
3. Biology, 7th grade textbook, "Education", Tbilisi, 1998 (Co-authors: G. Tumanishvili, I. Lazrishvili, I. Korkia, G. Gvaladze, S. Tsagareli);
4. Biology, 7th grade textbook, "Education", Tbilisi, 2004, updated edition (co-authors: G. Tumanishvili, I. Lazrishvili, I. Korkia, G. Gvaladze, S. Tsagareli);

### **EDITING BOOKS AND COLLECTIONS OF WORKS**

Systemic, Cellular and Molecular Mechanism of Physiological Functions and Their Disorders (Proceedings of I. Beritashvili Center of Experimental Biomedicine - **2018**), Nova Science Publishers Inc, New York, **2018**, 339 pages.

Systemic, Cellular and Molecular Mechanism of Physiological Functions and Their Disorders (Proceedings of I. Beritashvili Center of Experimental Biomedicine - **2015**), Nova Science Publishers Inc, New York, **2016**, 406 pages.

R. Khetsuriani,. A. Shukakidze. Manganese and the central nervous system. Bio-Medical Technology Resource Center, Tbilisi, 2003

V. Begiashvili. Introduction to the general theory of blood circulation regulation. Metsniereba, Tbilisi, 1990.

Physiology, pathophysiology and pharmacology of cerebral circulation. Proceedings of the All-Union Conference, Tbilisi, Metsniereba, 1988.
