Georgian National Academy of Sciences

Personal Data (CV)

Surname	Natriashvili	First Name	Tamazi
Address (work, home)	0194, Tbilisi, Panaskerteli str. № 17, fl. 45	Date and place of birth	09.05.1950 Georgia
Citizenship	Georgian	Telephone number(s)	+995 577 39 20 80 +995 599 22 24 20 Work: +995 32 232 56 39 Home: +995 32 2 36 29 17
E-mail	t_natriashvili@yahoo.com		

3. Education

Education	Institution	Learning Time
Secondary	Maiakovski, Egn. Ninoshvili Secondary School	1957-1967
Higher	Georgian Polytechnical Institute	1967-1972
Postgraduate study, doctoral candidacy		

4. Knowledge of Languages

Foreign languages	Level of language proficiency (fluent, intermediate, beginning with the help of a dictionary)
Georgian	Fluent
Russian	Fluent
French	Intermediate
English	With the help of a dictionary

5. Scientific or Academic Degree and Rank

	Title of the thesis	Date of conferment
Ph.D. thesis	"Rise of the supercharging tractor diesel effectiveness in the high-altitude conditions".	08.02.1982
Doctoral thesis	"Development of the methods and means of perfection of the forced auto-tractor diesels characteristics working in	05.12.2003

	the high-altitude conditions".	
Academician Doctor		
Professor		
Corresponding Member of the Academy		
Member of the Academy	Machine Mechanics	26.12.2018.

6. Work Experience

Date	Institution	Position
2006- to present	LEPL R. Dvali Institute of Mechanics of Machines	Director
1995-2006,	Institute of Mechanics of Machines of the Georgian Academy of Sciences	Deputy Director
1991-1995	Institute of Mechanics of Machines of the Georgian Academy of Sciences	Head of the Department
1984-1991	Institute of Mechanics of Machines of the Georgian Academy of Sciences	Senior Scientific Worker
1974-1984	Institute of Mechanics of Machines of the Georgian Academy of Sciences	Junior Scientific Worker
1972-1974	Institute of Mechanics of Machines of the Georgian Academy of Sciences	Senior Technician

6.1 Teaching Activity

Date	Institution	Position
2011- to present	Georgian Technical University	Invited Professor
1985-1991	Georgian Polytechnic Institute	Lecturer

6.2 Work Abroad

Form of activity	Date	Place and Institution
Delivering a course of lectures at foreign higher education institutions	1989-1990	Pierre and Marie Curie University, Paris, France.
	1987-1988	Institute "AutoCut", Hungary.
Long-term academic mission to research institutions	1991	The Weizmann Institute of Science, Israel.
	1988-1991	Pierre and Marie Curie University (University Paris-6), Paris, France
	1986-1988	Institute "AutoCut", Hungary.
Other		

7. Sphere of Scientific Interests

Research and Improvement of Capacity, Economical and Ecological Indicators of Automobile Engines and Using Alternative Fuels on Motor Engines
Development of new technological machines
Research of dynamic processes of motor systems
Study of solid body shock processes
Robotized systems processing
Use of non-traditional sources of energy

8. Publications (Total number, indicating the Citation Index (number))

Over 160 scientific works

8.1 Monographs

Years	
2010	R. Adamia, T. Natriashvili, S. Mebonia. The engineer methods of calculation of parameters of the impact interaction of rigid bodies. (Monograph), "Technical University", Tbilisi, p.230;
2011	R. Adamia, T. Natriashvili, S. Mebonia. Optimization of dynamical processes of the machine systems. (Monograph), Publishing House of National Academy of Sciences of Georgia, Tbilisi, p. 373;
2016	V. Kldiashvili, T. Natriashvili, S. Mebonia. Calculations of induction motors at rewinding. Tbilisi, p. 216;
2017	T. Natriashvili, S. Mebonia. Methods of calculation of the impact loads in heavy loaded machines. Tbilisi, p. 235.

8.2 Principal Papers (no more than 50)

Years	
1977	Натриашвили Т.М., Кордзадзе Б.И., Гвинианидзе И. Влияние охлаждения наддувочного воздуха на работу дизеля Д-249Т в высотных условиях. Сб. «Механика машин», Изд-во «Мецниереба», Тбилиси, 1977, ст. 134-142;
1978	Натриашвили Т.М., Гвинианидзе И. Влияние величины сечения безлопаточного направляющего аппарата турбины на работу дизеля Д-240Т в различных климатических условиях. Сб. «Механика машин», Изд-во «Мецниереба», Тбилиси, 1978, ст.32-42;
1978	Натриашвили Т.М., Каминский В. , Каминский М. Кордзадзе Б.И, Гвинианидзе И. Выбор оптимальных параметров системы наддува форсированных тракторных дизелей при эксплуатации в высокогорных условиях. Труды НАТИ, вып. 258, Москва, 1978, ст. 61-66;
1980	Натриашвили Т.М., Кордзадзе Б.И. Исследование влияния атмосферных условий на активное тепловыделение и показатели работы дизеля. Сб. «Механика машин», Изд-во «Мецниереба», Тбилиси, 1980, ст.158-166;
1983	Натриашвили Т.М. Методика и результаты расчёта оптимальной системы наддува для дизеля работающего в высокогорье. Труды, ГПИ №13(270), Тбилиси, 1983, ст. 43-48;
1984	Натриашвили Т.М. Уточнение формул пересчёта мощности для тракторных дизелей с турбонаддувом. Сб. «Механика машин», Изд-во «Мецниереба», Тбилиси, 1983, ст. 34-42;
1997	Натриашвили Т.М. К возможности улучшения работы дизелей с наддувом в высокогорных условиях. Georgian Engineering News, #4, Tbilisi, 1997, p.83-85;
1997	Натриашвили Т.М. Исследование форсированных автотракторных двигателей при различных режимах нагрузки высокогорных условиях. Georgian Engineering News, #4, Tbilisi, 1997, p.78-82;
1998	T. Natriashvili, B. Kordzadze, I. Djebashvili. Fonctionement des moteurs diesel rapides turbosurralimentés en altitude à régime variable. Entropie, #148, Paris, 1989, p. 77-78;
2001	A. MandJgaladze, T. Natriashvili. Calculation of the tree-dimensional twisted flow. Georgian Engineering News, Publ. GFID, #1, Tbilisi, 2001, p.33-36;
2003	Адамия Р. Ш., Манджгаладзе А.А., Натриашвили Т. М. Расчёт и усовершенствование конструкции разветвленных участков газовоздушного тракта (ГВТ) дизеля. Труды Кутаисского научного центра АН Грузии, № 7, Кутаиси, 2003, ст. 5-12;
2004	T. Natriashvili , R. Kenkishvili. Measuring System to Improve Ecological Indexes of Internal Combustion Engines. Georgian Engineering News, Publ. GFID, #3, Tbilisi, 2004, p.145-150;

2004	G. Badrishvili, T. Natriashvili. Complex System of Monitoring. Georgian Engineering News, Publ. GFID, # 3, Tbilisi, 2004, p. 150-153;
2006	R. Adamia, A. Milnikov, T. Natriashvili. The oscillation beatings in machines and their preventing methods, "Problems of Mechanics", Tbilisi, № 4(25), 2006, p.9-16;
2008	T. Natriashvili, B. Kordzadze, R. Demetradze. Maintenance of principle indices of the turbo-supercharged diesel operation under high altitude conditions. " Problems of Mechanics", Tbilisi, № 4(33), 2008, p.29-34;
2008	V. Zviadauri, G. Tumanishvili, T. Natriashvili. Influence of spatial resonant oscillations of the vibratory machine working organ on the technological load behavior. Institute of Mechanics RTU Rare attractors and rare phenomena in nonlinear dynamics, Riga, RTU, 2008, p. 127-130;
2008	R. Adamia, T. Natriashvili. On the method of dynamical loads restriction and quality raising of the metal produce of high speed rolling mills. HUTNIK 1, Zakopane, 2008, p. 9-11;
2009	T. Natriashvili, D. Iosebidze, O. Gelashvili. Elaboration of the model of logistical system- "Ecological safety of automobiles-diesel oil properties". "Problems of Mechanics", Tbilisi, № 4(37), 2009, p.32-42;
2010	T. Natriashvili, M.Glonti, R. Qavtaradze, Z. Qavtaradze, A. Zelencov. Solutions of some Problems of improvement of Ecological Characteristics of the Diesel Engine converted in the Gas Engine. "Problems of Mechanics", Tbilisi, № 1(38), 2010, p.13-28;
2011	Lomsadze L., Natriashvili T., Lomsadze Z., Mebonia S. Obtaining of the profiles with the exact pitch by means of the combined processes of rolling and drawing. " Problems of Mechanics", Tbilisi, № 2(43), 2011, p. 36-41;
2012	J. Aneli, T. Natriashvili, M. Ben Chaim, G. Basilaia. Electric conductivity of polymer composites at relaxation and phase transitions. "The seventh international conference on materials technologies and modeling". Ariel university center of Samaria, Israel, 2012, 3-33-3-40;
2012	T. Natriashvili, S. Mebonia, M. Mikautadze, D. Demetradze, "Definitions of impact interaction parameters at grip of metal by mill rollers". "Problems of Mechanics", Tbilisi, № 3(48), 2012, p. 54-59;
2013	T. Natriashvili, R. Kavtaradze, Z. Kavtaradze, A. Zelencov, D. Onishchenko, "Modeling radiative – convective heat transfer in the diesel engine". " Problems of Mechanics", Tbilisi, №2 (51), 2013, p. 5-13;
2013	T. Natriashvili, S. Mebonia, M. Mikautadze, "Definition of deformation rate in the helical piercing of billets", " Problems of Mechanics", Tbilisi, № 3 (52), p. 45-49;
2014	T. Natriashvili, S. Mebonia, M. Glonti, M. Mikautadze, "The new scheme of the pipe-rolling unit for receiving seamless hot-rolled pipes", " Problems of Mechanics", Tbilisi, № 2(55), 2014, p.99-105;

9. Organizational Work (Holding of Congresses and Conferences, Editorial Work)

Years	Name
2002-2019	Member of the organizational committees and a chairman of the section of various international scientific conferences and events; permanent member of the international program committee of the “IFToMM” Ukraine National Committee scientific and technical conferences.
2006-2019	Member of the editorial boards of the scientific and technical journals “Problems of Mechanics”, “Georgian Scientific News”, “Novatsia” and journal “Internal Combustion Engines” of Academy of Sciences of Belarus. Member of the editorial board of the journal “Matsne” (with the security label) of Georgian National Academy of Sciences.

10. Inventions (Author's Certificate, Patents)

Years	Name
1991	Internal combustion engine. Author's Certificate of USSR #1698467. T. Natriashvili, I. Jebashvili, B. Kordzadze, V. Kaminsky, Z. Napetvaridze.
1992	Rotary machine. Author's Certificate of USSR #1781461. T. Natriashvili, A. Maisuradze, I. Jebashvili.
1992	Braking device. Author's Certificate of USSR #1809132. B. Kordzadze, T. Natriashvili, I. Jebashvili, Z. Napetvaridze.
1998	Mode of operation of the internal combustion engine and internal combustion engine. Georgian Patent GE P 2000, 2193B. R. Kenkishvili, T. Natriashvili, I. Jebashvili, T. Khukhuni.
2004	Feeding system of the gas-diesel engine. Georgian Patent GEU 1151U. R. Kenkishvili, T. Natriashvili, G. Badrishvili, G. Chanturia.
2014	Braking device of the automobile. Georgian Patent P6353. T. Natriashvili, B. Kordzadze, R. Demetraishvili.
2015	Drying device. Georgian Patent U 1917. T. Lezhava, K. Nikogosian, T. Natriashvili, J. Meskhi.
2016	Eccentric-wedge radial reducing machine. S. Mebonia, T. Natriashvili, M. Mikautadze, Proposal #14364/01.
2017	Frequency adjustable induction electromotor. Georgian Patent P6677, #10, 2017. T. Natriashvili, V. Kldiashvili, S. Mebonia, A. Shermazanashvili.
2017	Radial reducing machine for symmetric work-pieces. Georgian Patent P 6654; Bull. of inventions #7. S. Mebonia, T. Natriashvili, M. Antelava - Baakashvili.
2018	Radial reducing machine. Georgian Patent P 6862; Bull. of inventions #11. T. Natriashvili, S. Mebonia, M. Mikautadze.

11. International and Local Scientific grants

Years	Name
Grants of Georgian National Academy of Sciences	
1997-1999	Perfection of the working process and fuel-feeding device of the internal combustion engine working on the gas; Leader
2000-2001	Improvement of the internal combustion engine working process; Leader
2002-2003	Working out state standards on the automobile produce; Implementer
2004-2005	Working out state standards on the automobile produce; Leader
Grants of Shota Rustaveli National Scientific Foundation	
2014-2015	Study and development of the electromotor-wheel for the transport means. Scientific leader .
2015-2017	Modeling and study of a new alternative burning process for obtaining high ecological indices of the diesel with the use of the 3D non-stationary equations of Navier-Stokes. Main executer .
2017-2018	Industrial tests and optimization of the free innovative automobile catalyst obtained from precious metals. Scientific leader .
2019-2021	Researches into the processes of generation of the turbulent movement, combustion products and nitric oxides in the hydrogen diesel cylinder with the use of the 3D model based on the equations of type of Navier-Stokes. Main executer .

12. Scientific-Commercial Activity, author's certificate, Implementation

Years	Name
1980-1991	In the Soviet Union - the results of researches in the sphere of internal combustion engines were implemented in the tractor plants Belarus and Ukraine, in the automobile plants in Kutaisi (Georgia) and Naberezhnie Chelni (Russia).
1994-1997	In Georgia – the automobile engine feeding systems operating on the natural gas were implemented in various automobile enterprises of Tbilisi;

2011-to present	Participation in the development of the fighting machine "Didgori", its modification and other fighting machines and weapons.
-----------------	---

13. Other Activities

	Name	Years
Supervision of Theses and Masters work		
	S. Sharashenidze – “Reduction of dynamical loads in the crank-slider mechanism of the railway refrigerator wagon diesel engine by optimization of clearances in the junctions”. Candidate of Technical Sciences.	09.12.2005
	P. Dolidze – “Perfection of the working process indices of the engine-compressor with free piston with the use of synchronous transmission of the air in the compressor”. Candidate of Technical Sciences.	16.06.2006
	N. Diasamidze – “Rise of the power, economic and ecological indices of the petrol automobile engines by optimization of the gas-distribution phases”. Candidate of Technical Sciences.	17.02.2006
	N. Dvalishvili – “Conversion of the diesel into gas-diesel with the optimal structural and operating indices for working in the electro-generator plant”. Candidate of Technical Sciences.	30.11.2007
	T. Aphkhazava – “Perfection of the gas-diesel feeding system with generation of the internal mixture complex estimation of its ecological effectiveness”. Candidate of Technical Sciences.	2007
	P. Mshvildadze – “Study of the operating process and improvement of the exploitation indices of the transport diesel at working in the high-altitude conditions”. Academic Doctor.	27.03.2009
	R. Kenkishvili – “Study and perfection of the fuel-feeding equipment of the internal combustion engine operating on the gas fuel”. Academic Doctor.	2009
	P. Bezhanishvili – “Improvement of exploitation properties of buses working in urban conditions”. Academic Doctor.	31.07.2013
	M. Begiashvili – “Rise of effectiveness of the engine braking of the automobile by perfection of the gas-distribution mechanism”. Academic Doctor.	2014
	M. Glonti – “Research into possibility of rise of the automobile diesel ecological compatibility by modeling of the burning process”.	2018
	N. Bashaleishvili – competitor for doctor's degree - “Development of the mobile machine meant for safety transportation of the load in difficult operational conditions”.	At present
	G. Chagelishvili - competitor for doctor's degree – “Development and study of the small-sized special purpose mobile machine”.	At present
Participation in International, State and Regional Programs		
Executer	Research into the adjustable gas turbine supercharging of the spark-ignition internal combustion engine operating in the high-altitude conditions and adjustment of the non-controlled supercharging system to the engine.	1970-1973

Main executer	Research into the auto-tractor engines with adjustable gas turbine system at operating in the high-altitude conditions.	1974-1976
Main executer	Research into the ways of improvement of the systems of automatic adjustment of the gas turbine supercharging for the spark-ignition internal combustion engines.	1977-1980
Main executer	Development and study of the air intermediate cooling system of the turbo-supercharging transport diesel in the high-altitude conditions.	1982-1985
Leader	Development and manufacturing of the small power autonomous solar power engineering devices having a focusing collector and machine transformer of the power.	1987-1990
Leader	Perfection of the cooling system for the air to be supercharged at operation of the turbo-supercharging diesel ЯМЗ-КА3-642 in the high-altitude conditions.	1987-1989
Leader	Study and adjustment of the volume dilatation machine with rotary blades operating on the exhausted gases of the adiabatic diesel.	1989-1993
Leader	Improvement of exploitation indices of the diesels developed in the Kutaisi Automobile Plant for working in the non-standard atmospheric conditions.	1990-1992
Leader	Development and study of the fuel distributing apparatus of the internal combustion engine operating on the alternative fuel.	1994-1995
Leader	Improvement of the transport diesel operating process by perfection of the mixture formation at working on the natural gas.	1995-1997
Leader	Development and study of the low pressure gas reducers of the automobiles with gas-cylinders.	1997-1998
Leader	Perfection of the operating process and fuel-distributing apparatus of the internal combustion engine operating on the gas.	1998-2000
Leader	Study of dynamics of braking of the automobile with a new engine brake-decelerator by graphical and analytical method.	2003-2004
Leader	Mathematical modeling of the suction tract of the internal combustion engine.	2003-2005
Coordinator	Of the priority problem, "Development of innovative technologies in the machine-building and transport means".	2006-to present

14. Awards and Prizes, Honorary Title

Date	Name of Awards, Prizes, Honorary Title
2011	Georgian National Prize in the sphere of science.

15. Family Status

Married – a son and a daughter
